

3/4 Time Signature Example

OCTO

March 21, 2025

This document demonstrates how to represent a 3/4 musical time signature in LaTeX using the `lilyglyphs` package.

Time Signature

Here is the 3/4 time signature symbol $\frac{3}{4}$ that you wish to type. Even some more complex can work like $\frac{3 \cdot 2}{8}$ or $\frac{3 \cdot 5}{4 \cdot 2}$. You can use the `lilyglyphs` package to include various other musical symbols as well. Enjoy typesetting your musical symbols.
